SECTION TWO
GOAL AND BACKGROUND INFORMATION

2.01 Goal and Background Information

UNTS is a university system that is composed of the University of North Texas in Denton (UNT), the University of North Texas Health Science Center (UNTHSC) in Fort Worth and the University of North Texas at Dallas (UNTD). The three (3) independent universities of the UNT System have combined enrollment of just over 42,000 students across five (5) major teaching locations including each main campus as well as Frisco and Downtown Dallas. The University of North Texas System on behalf of UNT, UNTHSC, and UNTD is requesting information to obtain information on what custodial supplies, extermination and pest control services are needed to facilitate the needs of all UNT World campuses. The goal of this RFI is to research alternatives to maximize value, improve efficiency, and bring savings to all campuses. This RFI calls for suppliers to provide detailed information, market trends, and helpful ideas which will help us develop best options from past purchasing patterns, its needs and requirements, as well as to identify areas for improvements.

2.02 Information Requesting

It is important to note that no award will be made from this RFI; however, companies submitting information will have a strong likelihood of receiving an invitation to participate in an eventual request for proposal for this service should UNT issue one. Financial information such as cost and fees are not necessary; however, the scope of service that your company provides in connection with the services requested would be beneficial. We would also be interested in receiving a list of references where you currently provide these services. References should include company/institution name, point of contact, and an email address.

2.03 Estimated Annual Spend

- Custodial: $931,700.00 (total for all departments except UNT)
- Pest Control: $32,000.00 (UNTD Grounds only)
